

## Black Jack

Black Jack, also called «21» or «17+4», is pure fun and excitement. You are your own boss and decide yourself whether you would like another card to get closer to 21 than the Croupier.

## The objective of Black Jack

The objective of Black Jack is to get closer to the value of 21 with your hand than the Croupier. Without, however, exceeding this value.

## Participants

At the Black Jack table five to nine game boxes can be arranged in crescent shape. The game is played with up to 6 decks of 52 cards each. The players sitting at the table are the box owners. Guests standing up who also play on the boxes have to respect decisions of the box owners.

## The winnings

You win double your wager (1:1) if your cards do not exceed 21 points and if their total is higher than the Croupier's points. If you win with a Black Jack your wager will be paid out 3:2.

## Game variants

At tables where a Black Jack 6:5 is paid out, there is a special there is the special rule Bonus Blackjack.

## Bonus Blackjack

A „Bonus Blackjack“ is a „Blackjack“ that consists of the card combination Jack of Spades + Ace of Spades card combination. The payout ratio for a „Bonus Black-jack“ is (5:1). If a player achieves one of these in game variants with „Bonus Black Jack“, the stake is paid out immediately - even before a second card is drawn for the croupier/the croupière - is paid out. The game is over after the payout for the box in question. A corresponding marking of this game variant and its payout ratio is displayed at the gaming table.

## HOW TO PLAY

After all the players have placed their wagers on the game boxes, each box is dealt a total of two cards and the Croupier is dealt an open card.

In a prescribed order – beginning with the box which is closest to the card shuffler – each owner of a box can now demand one or more cards until they believe they are close enough to 21. However, if their hand exceeds the value of 21, the wagers and the cards on the box are collected by the Croupier.

After the last box owner has renounced their option of an additional card and has done so by saying «stay» or «no more card», the Croupier draws a further card. From the card value 17 upwards the Croupier is not allowed to draw another card.

Should the Croupier's hand exceed the value 21, all participants staying in the game have won. Should the Croupier's hand be below 21, only the players whose hand is closer to 21 than the Croupier's will win. If a player and the Croupier have an equal amount of points, this is called a «Stand-Off», meaning a draw, and the player keeps their wager.

## ADDITIONAL GAMES

### Additional bet 3 Card Wins (3CW)

When betting on the 3CW additional field, the player bets on defined cards on defined card combinations consisting of the first 2 cards of a box of a box and the first card of the bank. The bet on a 3CW field can only be placed on a played field. The bet is not placed on a specific card combination, but generally on 3CW. If a card combination listed in the payable is achieved, there is a win. After dealing the first two cards of a field and the first card of the croupier/croupière checks whether the 3 cards dealt result in a winning combination. The cards dealt result in a winning combination according to the payout table if a bet was placed on 3CW. Winning bets are paid out according to the payable, non-winning bets are withdrawn. A payout in the event of a win is made once and only for the highest winning combination.

#### Paytable 3 card wins (3CW)

Highest spades: 3 aces of spades	300:1
Jacks in red: 3 Jacks in red suit (hearts, diamonds; also mixed)	200:1
Threes: 3 identical cards (e.g. 3 kings)	50:1
Black line: 3 cards in black suit (spades, clubs; also shuffled)	4:1

### Zusatzwette Queens Trio (QT)

With a bet on the additional game Queens Trio (QT), the player bets that guest bets that either one, two or three queens (Queens) on the first 2 cards of a box, as well as the first card of the card of the croupier is dealt. The bet on a QT field may only be placed on a played box and before the cards are dealt. After the first two cards of a box and the first card of the bank, the croupier/croupière checks whether the 3 cards dealt a winning combination (one, two or three queens) according to the payable, if bets have been placed on the QT betting field. Winning bets are paid out according to the payable, non-winning bets are collected. A payout in the event of a win is made once and only for the highest winning combination.

#### Winning table Queens trio (QT)

Three Queens of Spades (three queens of spades)	300:1
Three Queens (three queens)	50:1
Two Queens of Spades (two queens of spades)	20:1
Two Queens (two Queens)	10:1
One Queen of Spades	4:1
One Queen (one queen)	2:1

## CARDS

### The values of individual cards

Black Jack is played with 6 decks of 52 cards each. There are 13 card values in the four suits – Diamonds, Hearts, Spades and Clubs. The type of suit is irrelevant for card values.

**A**  
♥ The ace has a value of (optional) 1 or 11 points.

**2** | **4** | **10**  
♥ | ♠ | ♥ From 2 to 10 the face value of the card applies.

**J** | **Q** | **K**  
♥ | ♣ | ♦ Each court (picture) card has a value of 10 points.

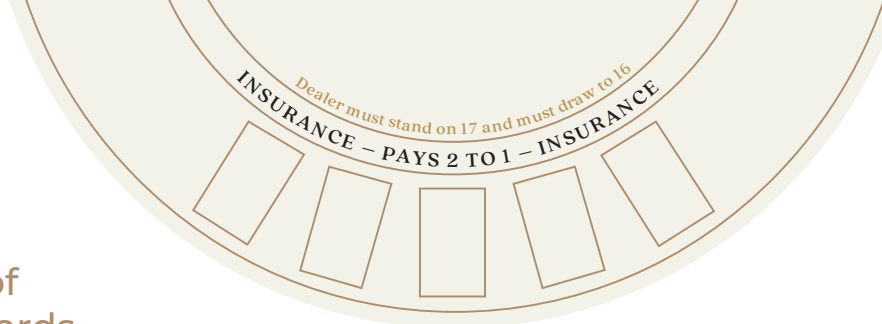

## GAME SITUATION AND JARGON

### Black Jack

Black Jack is the total of 21 reached with the first two cards (e.g. Ace and King). Black Jack beats all other card combinations.

### Insurance against Black Jack

If the Croupier has an Ace as first card, players can insure themselves against a Croupier's Black Jack with a maximum of half their original bet. The insurance sum is placed on the «insurance bar».

### Doubling down

The box owner has the chance to double their bet with all first two cards (even after a split), except in the event of a Black Jack combination. If you double your bet you will only receive one additional card. As a noncontrolling player you may only double your bet if the box owner does the same.

### Triple seven

If in the course of a game a player is dealt three sevens on his box, their bet will be paid out immediately 1:1. The original wager continues.

### Split

You may divide up your hand if the first two cards have the same value, for instance, two Threes or two Jacks.

You will then go on playing with a split hand, with two individual bets. You may split up to three times.

For each split hand you have to wager a new bet in the amount of the first bet. You will then receive as many cards as you like for your further game. Exception: Aces.

On two split Aces you will get only one more card, and in this case «21» in a hand does not count as Black Jack since the card combination has not been reached by the first two cards.
