

Next steps

After being dealt the first two cards you can either «**check**», meaning you stay in the game without betting, or place 3 to 4 times your «**Ante**» bet on «**Play**».

Now the Croupier will reveal the first three community cards. If up to now you have not yet placed a bet on «**Play**» you can choose again: check or bet twice your «**Ante**» on «**Play**». The Croupier will then reveal the last two community cards. If you have not betted on «**Play**» by then, you can do so now with a bet equivalent to your «**Ante**» bet, or you can fold, meaning that you quit the game, but losing both your «**Ante**» and «**Blind**» bets.

Progressive payouts

You will win the «**Progressive**» bonus if you have at least a Full House. The highest payout, i. e. 100 % of the Progressive jackpot, goes to you if you have a Royal Flush. All payout quotes can be seen on the Progressive display.

Ending the game

The Croupier reveals their two cards and presents their hand. If you have a better hand, «**Play**» and «**Ante**» are paid out 1:1. If the Croupier beats your hand, the bets on «**Ante**», «**Play**» and «**Blind**» go to the bank. In the event of a tie, these bets remain on the table. «**Blind**» is paid out if your hand wins with at least a straight. If you win with a lower score than a straight, the bet on «**Blind**» remains on the table, however, it will not be paid out. The «**Trips**» bet wins if you have «**three-of-a-kind**» or a better hand.

ULTIMATE TEXAS HOLD'EM™ PROGRESSIVE

CASINO
ST. MORITZ

HOW TO PLAY

Ultimate Texas Hold'em™ Progressive is an exciting poker game with face-down and community cards played against the bank. It offers optional additional bets such as the «**Trips**» bet and the «**Progressive**» bet. The objective of the game is to form the best possible 5-card combination (hand) from 7 cards (two own cards and 5 community cards).

Game advantages

- raise or not raise – you do not have to make your final decision until you have seen all the community cards.
- the earlier you decide the more you can bet.
- «**Trips**» bonus is always paid when your final hand of five cards shows a three-of-a-kind or better combination.

Starting the game

You bet the same amount on «**Ante**» and «**Blind**». You also have the option to place additional bets «**Trips**» and / or «**Progressive**». You will then be dealt two cards face down.

IMPORTANT TERMS

Ante

Basic wager which is placed by all players in order to take part in the game. The Croupier needs to have a Pair to qualify. If the Croupier does not qualify, the «Ante» goes back to you.

Bet / Play

Your wager: for more information, see «How to play».

Blind

Another basic wager which is placed by all players in order to take part in the game.

Board

The «Board» is the 5 face-up cards in the middle of the table which can be used by all players to form their poker hand.

Check

This term means that you stay in the game without betting. You may wait until the first three or all community cards are revealed by announcing «check».

Common Cards

Community cards which can be used by all players for their poker hand.

Suits

The term «Suits» stands for: Hearts, Spades, Diamonds and Clubs.

Fold

To quit, to pass: leave the current round.

Hand

The term «Hand» is used in more than one way:

1. The best five cards which are used to form the winning hand.
2. All the cards which are dealt to a player to form their winning hand.

Trips

This is an optional additional bet. The «Trips» bonus is paid out as soon as the final hand of a player consisting of five cards shows «Three of a kind» or a better combination, independent of whether this hand beats the bank or not.

Progressive UTH

This is an optional additional bet with a jackpot integration. The player has to place their bet on the layout (sensor), which then starts to blink. In order to hit the jackpot, at least one card of the two cards dealt to the player has to be used.

Envy Bonus

Royal Flush of another player: each player participating in a «Progressive UTH jackpot game» will receive an «Envy Bonus» if another player wins a Royal Flush, according to the payout quote display. The bonus will not be paid to the winner of the jackpot. The bonus will not be paid out if the Croupier comes up with a Royal Flush.
